

Panasonic CF-AX2 Business Rugged Convertible Ultrabook

- Operates as a tablet or laptop
- Windows 8
- 11.6" HD screen
- Withstand drops of up to 76cm
- 8 hours battery life

Enjoy the convenience of both a tablet and a notebook in one robust package with the Toughbook Windows® Ultrabook™

Drawing on its long pedigree of combining ergonomic and durable design, Panasonic has created the highly mobile, lightweight and stylish Toughbook CF-AX2 Windows 8 convertible Ultrabook. It features a unique and robust 360° flip-over hinge design with a 10 finger capacitive touch screen, and runs on the Windows 8 operating system to deliver a fluid user experience.

360° flip-over hinge design and 11.6" HD touch-screen

The Toughbook CF-AX2 features a unique 360° degree flip-over hinge design which allows business users to have the best of both worlds, with the option to use as a touch-screen tablet or state-of-the-art, stylish Ultrabook. A 10 finger capacitive high definition touch-screen means that the CF-AX2 is easy to use both in tablet mode, by mobile professionals who need to input data on the move while holding the device in one hand, as well as in notebook mode by mobile executives and those who need traditional keyboard input.

Windows® 8 Pro OS and Intel® Core™ i5 processor

The CF-AX2 offers the full functionality of the Windows 8 Pro operating system and is powered by a powerful Intel Core i5-3437U 1.9GHz vPro processor for faster operation and enhanced device management.

Super lightweight, with a business-rugged body

Weighing a mere 1.15kg and with a thickness of just 18mm, the super light Ultrabook CF-AX2 Toughbook is the industry's lightest business rugged convertible Ultrabook. Also, the CF-AX2 can easily deal with the knocks and scrapes of a busy mobile executive's life, able to withstand drops of up to 76 cm and 100 kgf pressure on the screen without damage.

Up to 8 hours battery life with hot swappable battery

Businesses with a mobile sales force and executives who need a lightweight rugged solution will find the CF-AX2 offers a new level of working freedom, with hot swappable batteries that have up to 8 hours battery life to minimise downtime and improve efficiency when based on the road or travelling to meetings.

Fully equipped with a complete range of ports

Importantly, the Toughbook CF-AX2 is fully equipped with all the required business ports, including full-sized VGA and HDMI for display and projector connections, two USB 3.0 ports and LAN, as well as a full sized SD-XC card slot.
